PROFESSIONAL SUMMARY

Self-starting and resourceful developer with experience implementing front-end and back-end functionalities. Astute and always-learning designer of user interactions that are sound and easy to use in webpages and APIs. Proven problem-solver with solid grounding in data-driven applications and concepts. Communicates clearly with technical and non-technical team members and promotes drive for quality service

SKILLS

Frontend Design

- Strong knowledge of JavaScript and TypeScript
- HTML and CSS fluency, semantic HTML and best practices for enhanced accessibility
- Chrome browser DevTools for live DOM manipulation, debugging HTTP transactions, gauging page performance and SEO
- React.js architectural patterns, state management techniques, usage of hooks

Backend and Dev-Ops

- Git version control
- Unit testing and E2E testing with Jest, Cypress, Jasmine and Karma
- RESTful APIs built with Node/Express and some experience with Spring Boot
- SQL and NoSQL database management with complex queries and mutations

APPLIED EXPERIENCE

- **Personal Portfolio Webpage** - https://julianlk.com Maximized search engine optimization (SEO) and first-class page performance with Next.js framework for React. Fluid CSS animations using Framer Motion API. Fully-responsive UI layouts with modern CSS techniques such as grid, flexbox and keyframes animations applied with TailwindCSS library for optimized code efficiency and modularity
- **PetSocial** - https://pet-social-project.netlify.app RESTful API built from scratch using Node.js and Express.js with data encryption and thorough error handling. Full Google OAuth support for signing up or logging in. Global state management using React and Redux Toolkit. NoSQL data storage and complex manipulations with MongoDB. Broad application of MaterialUI component library

EDUCATION

BBA | Individualized General Business   *05/2021*

University of Miami, Coral Gables, FL
